

Appendix E

In-Person Workshop Whiteboards

Q.1 - what types of processes do you like and why?

- Public Referendum - broadest reflection in the community
- Vote of Council - that is why we elected them to represent us. Can't always do a referendum
- Do not feel the municipality or council should be involved in any way in a referendum. The only way it is 3rd party and representative of the community. There is an issue with trust with council.
- Echo previously stated about concerns with council. Like referendum. Could do an opinion poll in advance for reassurance.
- Referendum in due time. When there is time to do research. When the bore hole drilling is completed.

wednesday
Mildmay, South Brackley
Time: 4pm ②

Q2. What do you dislike? Why?

- Referendum. Can't govern by referendum. Again, we elected council for a reason and they should make a decision for a reason.
- Community panel - feels random and risky. Level of education. Important to be informed.
- Referendum is the only way x3

Q4 What's important to you?

- would like to see more in the newspaper for info to the community.
- Direct mail
- New information
- Would like to check the sources of where the information is coming from. So that you can do your own research and make your own informed decision
- Try to follow what is going on at the CLC.
most of the speakers are in favour of the DSK

Q4 Cont.

Wednesday July 28
Midway Group Exercise
Time: 4pm

- Summary of information with availability to dive deep
- Accurate information

Q4 what's important

- Transparent means that I'm seeing the whole picture. There are ways to make information blurred b/c of optics.
- Transparency - leave it to the professionals.

Q5. Meaningful to participate

- Having the process and engagement that was undertaken.
- meaningful means that ~~is~~ actually means something that the input I provide actually gets taken into account in the decision.
- wanting to get people out and be easier to access and participate. Quantity of people

Thursday July 29
Formosa, South Bruce
Time: 11am

Q5

- ~~What~~ Want to know more about SON
- Scientific - good, bad, ugly
- Impact on agriculture, housing, jobs, economy
- Factual - attend meetings
 - eg help me understand why this location
- ⑤ Task: Also what contingencies are in place
 - Neutral, Scientific Source
 - Wait until we have the info
 - Aware that NWMO/SB have vested interest
 - want to hear both sides
 - Ideally no vested interest, but that doesn't exist
 - smaller
 - eg Mildmay pavilion every Wed evening

Monthly Newsletter to form

- eg from task group in CUE

More communication from NWMO

Council or NWMO

Transparent, Fair

Responsible and Clear

Thursday July 29 
Teeswater, South Bruce
Time: 5pm

Q5

We want to know that \$ is actually being
spent locally as they promised

Q5

- Understanding how they are protecting the environment
- Where is the money going from NWMO (land purchases, but no titles have changed, what companies are getting \$ for boreholes)
 - trail of \$ spent and going forward
 - Presented in a format they can understand
- Future Jobs - who is getting them in the future and whose got them already
 - are they jobs for locals?
 - All land acquisitions should have had it written into contract that its public
- NWMO talks transparency but the hold behind privacy
 - farm sales
- Selling price has impacted property values of neighboring farms
- Farms that have sold have a competitive advantage b/c they can rent more farms with the NWMO \$

Thursday July 29
Teeswater, South Bruce
Time: 5pm

- If opinion poll, must go door-to-door
- Doesn't drive anything forward

Q3

- Want to know what is willingness. either you want to do it or not
- Either yes, no, or can't be bothered

Q4

- Simple. yes or no
- Ho People need to understand what this is
 - people don't know what a DGR is
- Current lack of understanding. They ~~have~~ told me the failsafe for aquifer contamination
 - Nuclear is built around failsafe
- Simplify, People who are experts can explain it well
- CLC too scientific, not communicated in ~~my~~ my language
- Wording for referendum has to be simple

Q1

Referendum - seen as fair for everyone, even if not binding, influences Council

- Get ppl to understand what they are voting on
- Has to happen and how well can we do that. Get info to people who aren't seeking it
- Provide a mix
- Referendum ^{→ only way}, but provincial, must be 70%, 50% is not enough
 - If you go this way, have to be very carefully worded
- Should be an election issue
- During election or after?
 - hard call, low turnout, may have better turnout
 - *2 If separate its clear what you are voting on

Thursday July 29²
Teeswater, South Bruce
Time: 5pm

Q2

- Opinion Polls - Doesn't help educate

Q1

- People learn in different ways,
some read,
- Provide multiple formats for diff information

Q2

- CLC - being spoonfed by NWMO, don't accept speakers from NoDGR
 - All are connected to Nuclear
 - Don't see anything wrong with it, fear for their jobs
- Advisory Committee would have to be separate from NWMO
- NWMO o Municipality too cosy
 - ↳ lack of transparency of where the \$ is going
- Very disappointed if Council gets last say
 - Mistrust of Council, big risk
- Whatever the outcome of referendum, turnout & results will inform council
- Mistrust No one thought before 2020 that this may move forward

Thursday July 29
Formosa, South Bruce

Time: 1pm

Q1 - Preference

Referendum - Under provincial elections act it is the only way for anonymous input from the community. There is mistrust with the municipality. It is the only way. Unbiased.

Mobile information hub to learn more about the project.

Advisory Committee - good to have their opinion and input.

Community Engagement following the \$ it is always NUmO

Thursday July 29
Formosa, South Bruce
Time 11am

Q5

Peer Review - needs to ensure there is no back door interests

Refresh
Municipal Studies - Should Firms doing Peer Reviews should not also be doing studies, too much overlap, not clear
- Set rule that if you do ~~not~~ do a study, firm should not do future studies, conflict of interest

Enter digital
Key words

- *Emulation*

What program 30 years

Wednesday July 28
Mildmay, South Bruce

Time: 5pm ①

2. What would you like to ensure is included in the process to determine willingness?

w

→ Get consent from SON first, lots of effort & turmoil when they haven't decided. ↩

- What is the basis for asking SON?
Because river? Just because they don't have a presence in the community
Ask Explain their traditional territory

1. What processes should be used to determine willingness?

- Community Panel, - age, education, occupation
- Advisory Committee - as long as it's a representative cross section, structured
- Referendum, but need to be informed, not suited to all candidates mtgs
- Everyone gets a voice
- Referendum - based on taxpayers
- ~~also~~ allows for dissenting voice
- Separate from municipal election * 2
- Too messy
- So emotional, elect based on other issues
- Council should be prepared to make a recommendation * 2 by referendum

Wednesday July 28²
Mildmay, South Bruce
Time: 5pm

② Not Like

- Too much influence, not enough info
- Reactionary

③

Opinion Polls - too tainted by signs, letters to the editors, etc.

- Can have an opinion but not informed

Vote of Council

- moot point
- could tear apart a Council, could fragment them

Informed ⑤

- Minimize emotions, maximize objectivity
- Right amount of information

Wednesday July 28
Mildmay, South Bruce
Time: 5 AM

①

x2 Engagement Activities

- Get Current Information, discuss w/ others
- We have to live w/ this, no downside to having every opportunity
- Transparency

⑤

Task Group that's representative, objective (eg. no familial relations), there to collect / gather information & report back out

Fireside Chats w/ Council

- What keeps you awake @ night
- Peer to peer
- Smaller
- eg Mildmay pavilion every Wednesday evening

Monthly Newsletter ~~to~~ from

- eg from task group or CLC
- More communication from not from

Council or NWMG

- Transparent, ~~Res~~
- Respectful and filtered comments

not

unity

W July 28
Mildmay, South Bruce
Time: 5pm

④ - Transparency

- As information becomes available, it is shared in a timely manner, understand the why
- Refresh unbiased information
- Don't need to know who on Council is decided, just that they are
- More information the better

Transparency

- SON will be consulted and why,
- Report even if there's nothing to report
↳ eliminates assumptions that they aren't meeting or are withholding

⑤

* 2 Prefer digital information, searchable by keywords

- Executive Summaries for those that aren't going to read
- Have printed info available as an option
- Give people the option of detailed or high level
- Publicized Q&A, ~~do~~ not anonymous, → all ?s asked
- Diagrams
- Up to date info on test holes & communicating the process (when info is available)
- Impact on human health & animal health, key industries (ag, nuclear), economic impact (what prosperity, what does SB look like in 30 years)

⑤ Want to be informed about

- Process at Ignace site

- if Ignace site wasn't viable, we have more responsibility to make this work

↳ Need to do something with the waste

- Transparency will get more trust and an informed voter

- Would like straight goods on why other DGRs failed, without embellishment

- was the technology not there? 20 years ago?
rock not soled enough?

- Also what are the successful ones?

- Spoon fed basic information, straight goods

↳ and how have they addressed these problems, lessons learned

- Need to come from an objective source, not someone who is looking for your vote

- Environmental impact

What does meaningful look like?

- Not Based on facts, not emotions

- Engaged, informed

- Balanced, Transparent

Keep information simple

Letters to the editors from neutrals

... positively impact

Environmental impact

What does meaningful look like?

Based on facts, not emotions
engaged, informed

balanced, Transparent
information simple

Letters to the editors from neutrals

great potential to positively impact
community

Thursday July 29
Formosa, South Bruce
Time: 11am

Q1

- Referendum, but concerned about dates captured at the right time, should be informed - take the time to make the right decision
 - 5. Youth need a say and need all the information
 - Neutral party in the schools, giving good, bad, ugly
 - Incl. students that are away at uni.
- Like opinion polls, keep asking
 - Gives sense what information people have
- Word of mouth - can sometimes see one side
- Polls first then referendum

Thursday July 29
Formosa, South Bruce
Time: 11am

2
Q.2.

- Cautious about Vote of Council because of bias
 - > Mixed feelings - they are supposed to represent us, but all male
- CLC - limited number
 - hand picked
- Community Panel - Some like me would not participate, likely not representative
- Polls - Useful, but should not be used for final decision, e.g. handpick ?s, open to bias
